## THE FINANCIAL STATE OF LONG BEACH

A new analysis of the audited financial reports found Long Beach has a Taxpayer Burden™ of \$500, earning it a “C” grade from Truth in Accounting. Long Beach is one of 27 cities to receive a “C” grade for its financial condition.

Long Beach’s elected officials have made repeated financial decisions that have left the city with a debt burden of \$71.6 million. That burden equates to \$500 for every city taxpayer. Long Beach’s financial problems stem mostly from unfunded retirement obligations that have accumulated over the years. Of the \$5.3 billion in retirement benefits promised, the city has not funded \$1.1 billion in pension and \$51.5 million in retiree health care benefits.

Long Beach and other cities have become more transparent over the last few years, thanks to the Generally Accepted Accounting Principles (GAAP) set by the Governmental Accounting Standards Board (GASB), which now require governments to disclose pension (GASB 68) and other post-employment (GASB 75) benefits on their balance sheets.

## THE TRUTH:

Data included in this report is derived from the city of Long Beach’s 2018 audited Comprehensive Annual Financial Report and retirement plans’ reports.
