THE FINANCIAL STATE OF KENTUCKY

A new analysis of the latest available audited financial reports found Kentucky has a Taxpayer Burden™ of $25,700, earning it an “F” grade from Truth in Accounting. Kentucky’s overall financial condition seemingly improved by 34 percent from the previous fiscal year.

Kentucky’s elected officials have made repeated financial decisions that have left the commonwealth with a debt burden of $33.4 billion. That burden equates to $25,700 for every commonwealth taxpayer. Kentucky’s financial problems stem mostly from unfunded retirement obligations that have accumulated over the years. Of the $54.9 billion in retirement benefits promised, the commonwealth has not funded $26.2 billion in pension and $4.2 billion in retiree health care benefits.

Kentucky’s 2018-2020 budget provided additional funding for the state’s Teachers’ Retirement System (TRS). Based upon this level of funding and expected investment income, the TRS actuaries increased the percentage rate used to determine the current value of promised benefits. The result was a $14.5 billion decline in this system’s estimated unfunded promises.
