

Omaha, NE Earned 'D' Grade for Fiscal Health

The Truth

Money Needed to Pay Bills \$1 billion

Taxpayer Burden™ **\$6,200**

Financial Grade **D**

Ranking 51 out of 75

Financial State of Omaha

After the Covid-pandemic, in large part due to unrealized gains in stock market valuation of its pension investments and federal government stimulus money, Omaha's financial condition appeared to improve. Despite apparent improvements, Omaha had a Taxpayer Burden™ of \$6,200, earning it a "D" grade from Truth in Accounting.

The city's pension liability is calculated by subtracting earned and promised benefits from the market value of pension assets. Based on an exceptionally good year in the markets in 2021, the pension assets' values were high. The result was a dramatic decrease in Omaha's pension liability and a corresponding decrease in its money needed to pay bills. Even with inflated pension asset values, the city had set aside only 63 cents for every dollar of promised pension benefits and had no money set aside for promised retiree health care benefits.

Omaha's elected officials have repeatedly made financial decisions that left the city with a debt burden of \$1 billion. That burden came to \$6,200 for every city taxpayer. Omaha's financial problems stem mostly from unfunded retirement obligations that have accumulated over the years. In 2022, markets produced negative market returns and federal COVID relief waned. These conditions may increase the per taxpayer Tax Burden. Omaha could struggle to maintain current levels of government services and benefits without further negative impact on its financial health.

The data included in this report is derived from Omaha's 2021 audited Annual Comprehensive Financial Report and retirement plans' reports. To compare prior years and other cities' financial, demographic, and economic information, go to Data-Z.org.

Omaha's Financial Breakdown

Fast Facts

- Omaha needed \$1 billion to pay its bills, which was \$197.6 million less than it needed in 2020.
- This means each taxpayer would have to pay \$6,200 in future taxes for which they would receive no related services or benefits.
- Mostly due to high, short-lived gains in the value of pension plan assets, pension debt decreased significantly.

The City's Rills Evended Its Assets

The City's bills Exceeded its Assets	
Total Assets	\$3,896,226,000
Minus: Capital Assets	-\$2,789,871,000
Restricted Assets	-\$217,771,000
Assets Available to Pay Bills	\$888,584,000
Minus: Total Bills*	-\$1,911,728,000

, ,	
Each Taxpayer's Share of this Burden	\$6,200

*Breakdown of Total Bills	
Bonds	\$1,112,185,000
Other Liabilities	\$822,987,000
Minus: Debt Related to Capital Assets	-\$1,349,975,000
Unfunded Pension Benefits	\$814,258,000
Unfunded Retiree Health Care Benefits	\$512,273,000
Total Bills	\$1,911,728,000

Grade:

Money Needed to Pay Bills

Bottom line: Omaha would need \$6,200 from each of its taxpayers to pay all of its bills, so it has received a "D" for its finances. According to Truth in Accounting's grading scale, any government with a Taxpayer Burden between \$5,000 and \$20,000 receives a "D" grade.

\$1,023,144,000
