

#### THE FINANCIAL STATE OF RIVERSIDE

A new analysis of the audited financial reports found Riverside has a Taxpayer Burden<sup>TM</sup> of 3,300, earning it a "C" grade from Truth in Accounting. Riverside is one of 27 cities to receive a "C" grade for its financial condition.

Riverside's elected officials have made repeated financial decisions that have left the city with a debt burden of \$360.4 million. That burden equates to \$3,300 for every city taxpayer. Riverside's financial problems stem mostly from unfunded retirement obligations that have accumulated over the years. Of the \$2.4 billion in retirement benefits promised, the city has not funded \$627.8 million in pension and \$36.8 million in retiree health care benefits.

Riverside and other cities have become more transparent over the last few years, thanks to the Generally Accepted Accounting Principles (GAAP) set by the Governmental Accounting Standards Board (GASB), which now require governments to disclose pension (GASB 68) and other post-employment (GASB 75) benefits on their balance sheets.
