

## THE 3rd BEST STATE

### WYOMING IS A SUNSHINE STATE

The State  
Owns  
\$11.4 billion

The State  
Owes  
\$6.6 billion

#### EXCEED ITS BILLS

The state of Wyoming is a sunshine state because it has assets above its outstanding bills. The State has a \$4.8 billion financial surplus.

#### Each Taxpayer's Share of This Financial Surplus is \$22,600

Unlike most states, Wyoming has the money needed to fund State employees' retirement benefits and other outstanding bills. Wyoming is in good financial shape because the legislators and governors have only promised citizens and employees what they can afford to deliver.

*Number of taxpayers is based on the number of Wyoming federal tax filers with a tax liability.*

## 88% OF RETIREMENT LIABILITIES ARE NOT CLEARLY DISCLOSED

Truth in Accounting's detailed analysis discovered a total of \$614.0 million of retirement benefits have been promised but not funded. Because of the confusing way the State does its accounting, only \$75.6 million of these liabilities are reported on Wyoming's balance sheet.

The state of Wyoming has \$30.4 billion in assets, but most of these assets are not available to pay State bills.

The \$7.1 billion of capital assets, such as roads, buildings, and land should not be sold to pay bills. The use of \$11.9 billion of the assets is restricted by law or contract.

That leaves \$11.4 billion of State's assets available to pay \$6.6 billion of bills as they come due.

Wyoming's elected officials seem to promise only the amount of benefits they can afford to pay.
